Projects

- **GitHub (School Works):** https://github.com/ikepawsat/School-Projects
- **GitHub (Personal Works):** https://github.com/ikepawsat/Personal-Projects
    a. Friends requested a Discord Bot that announces who joined the voice-chat because they kept having to ask who joined. The Bot connects to the Discord API to get user info, dynamically creates a MP3 file with the announcement, joins the voice-chat, plays the MP3 announcement, and then quits.
